

TRANSFERCOLORPLUS

Choose What Works Best

COLORPLUS

Premium Quality Inks for Dye Sublimation Printing

PERFORMANCE ADVANTAGES

Less Nozzle Clogging on Printheads

No Drop-out in Up to 21% Humidity

Efficient Use Due to Higher Transfer Yield

Quick Drying for Higher Performance

High Coverage Ink Density

COLORPLUS inks provide what few others can: flexibility. This means ink variations to match different printers, durability to perform in different conditions, and chemical integrity to avoid common problems. The TCP team works with ink scientists and dye sublimation specialists around the world to provide you the best results and value for your demanding print production requirements. **We offer more color, less cost!**

Inks Manufactured in Europe

Adheres to European ISO Quality Standards

INK PACKAGING

Inks are available in bulk containers and cartridges for most dye sublimation printers and bulk-handling systems.

MORE COLOR

- Higher Ink Concentration
- 30% Ink Savings in Combination with **TRANSFERPLUS** Paper
- Greater Color Depth & Contrast
- Full Confidence on the First Pass Resulting in Fewer Reprints

LESS COST

- Less Wear and Tear to Printheads
- Fewer Nozzle Clogs, Prevents Banding
- Longer Shelf Life
- Excellent Release Capacity
12% Lower Average Ink Usage
- Fast Drying with Less Cockling

QUALITY & EFFICIENCY SHOULD NEVER COMPETE.

For 20 years, Transfer Color Plus (TCP) has controlled and monitored the entire process, from dye grinding to dispersion to production, and shipping to ensure each lot of ink is color and performance consistent. This attention to detail makes TCP products the leader in the dye sublimation industry for performance, strength, ink release and cost.

All products adhere to rigid European ISO standards. From lab to finished product, our solutions provide environmentally friendly processes, utilizing biodegradable, renewable resources.

TCP's warehousing facilities throughout the Southeast, Mid-West, West and Northwest allow us to deliver exceptional service and quick turnaround.

Our Whole Product Solutions team also provides paper, ink, printers, heat presses, fabric finishing treatments and related products that reduce waste and save you money.

Your trust and partnership in our quality products and services builds your customer's trust in you.
