

TRANSFERPLUS

High Efficiency Transfer Paper for Dye Sublimation

PAPER BASIS WEIGHT OPTIONS

50gm - Lightweight, Cost and Ink Efficient

Offers fine-detailed printing and stability even on light-weight textiles

75gm - Flexible and Practical

Balances economy with color performance

75gm - Tacky

Reduces costs without sacrificing color on stretchable fabrics

90gm - Stable and Vibrant

Produces deep, vivid color without cockling for backlit signage, sportswear and banners

95gm - Premium Tacky

Delivers color and reduces ghosting on stretchable fabrics and cut parts

105gm - Stable and Vibrant for Heavy Ink Loads

Creates highest quality colors and contours for soft signage, sportswear and more

TRANSFERPLUS papers provide the optimal combination of efficiency and quality for a wide range of applications. The TCP team works with paper scientists and dye sublimation specialist around the world to provide you the best results and value for your demanding print production requirements. **We offer more color, less cost!**

Paper Manufactured in Europe

Ensures the highest quality and consistent results

- Highest Color Density in Industry

LESS COST

- 20% Industry-Leading Ink Transfer Efficiency
- 30% Faster Transfer Speed Through Heat Press
- Quick Drying with Less Cockle
- Excellent Dimensional Stability

QUALITY & EFFICIENCY SHOULD NEVER COMPETE.

For 20 years, Transfer Color Plus (TCP) has controlled and monitored the entire process from pulp production to base sheet formulation, coating chemistry, plant production, and shipping to ensure each lot of paper produces the best color and image quality results. This attention to detail makes TCP products the leader in the dye sublimation industry for performance, strength, ink release and cost.

All products adhere to rigid European ISO standards. From lab to finished product, our solutions provide environmentally friendly processes, utilizing biodegradable, renewable resources.

TCP's warehousing facilities throughout the Southeast, Mid-West, West and Northwest allow us to deliver exceptional service and quick turnaround.

Our Whole Product Solutions team also provides paper, ink, printers, heat presses, fabric finishing treatments and related products that reduce waste and save you money.

Your trust and partnership in our quality products and services builds your customer's trust in you.
